

# THE HALEY PAINT FLATLINE

- Coat all 3 sides of trim & siding
- Coat up to 16" wide material
- Great for
  - Lap Siding
  - D- Log
  - Shed & House Trim
- Ability to prefinish at 200ft per minute
- Increases Productivity
- No over Spray
- No need for face rolling
- Great for Duo Blend & Semi-transparent finishes
- Built-in exhaust system

Haley's Flatline can be **tied to existing wall-mounted, multi-color paint spray systems to allow for easy color changeover and clean up.** They can be connected by either dedicated lines or for the ultimate portability, quick disconnects can be installed.

This allows you to move the Flatline equipment around the shop but still also have the convenience of quick color change and clean up!

Another Haley Paint invention designed by Shed Builders for Shed Builders
