

HIGH VOLUME LOW PRESSURE FOAM INSULATION SYSTEM

Haley Paint HVLP Foam paired with the mobile Haley HVLP Cart is a competitive insulation option. With mobility, cost, and durability in mind, this system has been designed for Shed and/or Cabin Builders.

FLEXIBILITY & CONTROL

The Haley HVLP system allows greater control over the scheduling, process, and quality of the work. There's no need to wait for an external contractor's availability, making it more convenient for urgent projects or unforeseen situations.

COST SAVINGS

The Haley HVLP system will save on external contractor costs. While there's an initial equipment expense there is a significant cost savings over time.

USER-FRIENDLY

The Haley HVLP system has all the advantages of a high pressure system without all the maintenance and health concerns. The startup and shutdown procedures only take minutes and the entire system can easily be operated by one person.
